**RE: Petition to rename Lake Calhoun within the Minneapolis Chain of
Lakes Regional Park to Bde Maka Ska**

Dear Mr. Chapin:

On 7 June 2017, the Minneapolis Park and Recreation Board approved Resolution 2017-208 (*Resolution Supporting the Renaming of Lake Calhoun Within the Minneapolis Chain of Lakes Regional Park to Bde Maka Ska, and Directing Staff to Circulate and Forward to the County Auditor a Petition to be Signed by at Least 15 Registered Voters of Hennepin County, Minnesota*). Prior to the action by the Board of Commissioners, Park Board staff reviewed the process for changing the name of a lake within Hennepin County. The Hennepin County Attorney's Office recommended the following actions be pursued, based on similar requests for changing lake names within Hennepin County:

- That the Board of Commissioners of the Minneapolis Park and Recreation Board would approve a resolution of support for the name change, including the specific name to be used;
- That a petition aligned with the resolution would be created and circulated to gain signatures of at least 15 registered voters of Hennepin County, Minnesota; and
- That the executed petitions would be forwarded to the Hennepin County Auditor.

At this point, petitions were created and circulated, with signatures gained in support of the name change. A copy of the approved resolution and copies of the signed petitions are enclosed with this letter. We understand further action on this matter is the purview of the Hennepin County Board of Commissioners.

Please let me know if you need any additional information.

Sincerely,

Michael Schroeder
Assistant Superintendent for Planning Services

Cc Anita Tabb, *President, Minneapolis Park and Recreation Board*
Jayne Miller, *Superintendent, Minneapolis Park and Recreation Board*

MINNEAPOLIS PARK AND RECREATION BOARD

AN ACTION, RESOLUTION OR ORDINANCE

In accordance with Article VI, Section 6.2(j), of the City Charter, there is herewith submitted to you, the Mayor of the City of Minneapolis, an action, resolution or ordinance adopted by the Minneapolis Park and Recreation Board which you may approve by affixing your signature herein below or if you disapprove of same to return to the Board, with your objection thereto, by depositing the same with the Secretary of the Board to be presented to the Board at their next meeting where the question of its passage will be put again before the Board.

7.7 That the Board adopt Resolution 2017-208 captioned as follows:

Resolution 2017-208

Resolution Supporting the Renaming of Lake Calhoun Within the Minneapolis Chain of Lakes Regional Park to Bde Maka Ska, and Directing Staff to Circulate and Forward to the County Auditor a Petition to be Signed by at Least 15 Registered Voters of Hennepin County, Minnesota

PASSED June 7, 2017

APPROVED _____

Secretary of the Board

Mayor

Henn. Co. registered voters

PETITION TO CHANGE THE NAME OF CALHOUN LAKE # 27-31

Pursuant to Minnesota Statutes 83A.05 to 83A.07, the undersigned registered voters and residents of Hennepin County, Minnesota do hereby petition the Hennepin County Board of Commissioners for a public hearing to change the name of "Calhoun Lake", located in Sections 4, 5; 32, 33, Township 28, 29, Range 24, in the City of Minneapolis (DNR I.D. 27-31) to "Bde Maka Ska."

During community engagement for the Calhoun - Harriet Master Plan, many Native Americans (including Dakota), African Americans, Latinos/Hispanics, and whites stepped forward to request that the Dakota name for the lake, "Bde Maka Ska", be restored to the park and lake and that the name Calhoun be eliminated. The Dakota name for the lake disappeared in 1820 when surveyors named the water body after then Secretary of War, John C. Calhoun. Today there is little visible evidence around the lakes of the inhabitation by Native Americans who lived in the area for hundreds of years before the Europeans arrived and of the Dakota people who were exiled from the state after the War of 1862.

Although many who enjoy the lakes today know nothing of the man John C. Calhoun, many disenfranchised communities are familiar with who he was and what he stood for. Calhoun has become a name synonymous with oppression suffered by many minority groups, especially those who inhabited Minneapolis before white settlement. He drafted the first Indian Removal Act that permanently displaced native people from their homelands; he was a staunch defender of slavery and owned slaves; he was a secessionist leader and thus partly responsible for the Civil War which claimed thousands of American lives. Calhoun also advocated for the annexation of additional lands from Mexico.

Names are important; they reflect what a culture deems important. Restoring the name Bde Maka Ska to Lake Calhoun, a gem within the Minneapolis park system, sends a powerful message to disenfranchised communities among our citizenry that this lake and public parkland are not for just a select group, but for all people. The restored name also adds a depth of meaning to a place almost devoid of evidence of its Native American past.

Figure 1 consists of two line graphs. The left graph plots 'Growth rate (log CFU/h)' on the y-axis (ranging from 0 to 1.5) against 'Temperature (°C)' on the x-axis (ranging from 10 to 50). It shows data points for a 10% NaCl solution, with a peak growth rate of approximately 1.4 log CFU/h at 37°C. The right graph plots 'Growth rate (log CFU/h)' on the y-axis (ranging from 0 to 1.5) against 'Temperature (°C)' on the x-axis (ranging from 10 to 50). It shows data points for a 10% NaCl solution with 0.1% glucose, with a peak growth rate of approximately 1.4 log CFU/h at 37°C. Both graphs include a fitted curve and error bars.

The Dakota name for the lake disappeared in 1820 when surveyors named the water body after then Secretary of War, John C. Calhoun. Today there is little visible evidence around the lakes of the inhabitation by Native Americans who lived in the area for hundreds of years before the Europeans arrived and of the Dakota people who were exiled from the state after the War of 1862.

Although many who enjoy the lakes today know nothing of the man John C. Calhoun, many disenfranchised communities are familiar with who he was and what he stood for. Calhoun has become a name synonymous with oppression suffered by many minority groups, especially those who inhabited Minneapolis before white settlement. He drafted the first Indian Removal Act that permanently displaced native people from their homelands; he was a staunch defender of slavery and owned slaves; he was a secessionist leader and thus partly responsible for the Civil War which claimed thousands of American lives. Calhoun also advocated for the annexation of additional lands from Mexico.

Names are important; they reflect what a culture deems important. Restoring the name Bde Maka Ska to Lake Calhoun, a gem within the Minneapolis park system, sends a powerful message to disenfranchised communities among our citizenry that this lake and public parkland are not for just a select group, but for all people. The restored name also adds a depth of meaning to a place almost devoid of evidence of its Native American past.

PETITION TO CHANGE THE NAME OF CALHOUN LAKE # 27-31

Pursuant to Minnesota Statutes 83A.05 to 83A.07, the undersigned registered voters and residents of Hennepin County, Minnesota do hereby petition the Hennepin County Board of Commissioners for a public hearing to change the name of "Calhoun Lake", located in Sections 4, 5; 32, 33, Township 28,29, Range 24, in the City of Minneapolis (DNR I.D. 27-31) to "Bde Maka Ska."

During community engagement for the Calhoun - Harriet Master Plan, many Native Americans (including Dakota), African Americans, Latinos/Hispanics, and whites stepped forward to request that the Dakota name for the lake, "Bde Maka Ska", be restored to the park and lake and that the name Calhoun be eliminated. The Dakota name for the lake disappeared in 1820 when surveyors named the water body after then Secretary of War, John C. Calhoun. Today there is little visible evidence around the lakes of the inhabitation by Native Americans who lived in the area for hundreds of years before the Europeans arrived and of the Dakota people who were exiled from the state after the War of 1862.

Although many who enjoy the lakes today know nothing of the man John C. Calhoun, many disenfranchised communities are familiar with who he was and what he stood for. PETITION TO CHANGE THE NAME OF CALHOUN LAKE # 27-31

Pursuant to Minnesota Statutes 83A.05 to 83A.07, the undersigned registered voters and residents of Hennepin County, Minnesota do hereby petition the Hennepin County Board of Commissioners for a public hearing to change the name of "Calhoun Lake", located in Sections 4, 5; 32, 33, Township 28,29, Range 24, in the City of Minneapolis (DNR I.D. 27-31) to "Bde Maka Ska."

During community engagement for the Calhoun - Harriet Master Plan, many Native Americans (including Dakota), African Americans, Latinos/Hispanics, and whites stepped forward to request that the Dakota name for the lake, "Bde Maka Ska", be restored to the park and lake and that the name Calhoun be eliminated. The Dakota name for the lake disappeared in 1820 when surveyors named the water body after then Secretary of War, John C. Calhoun. Today there is little visible evidence around the lakes of the inhabitation by Native Americans who lived in the area for hundreds of years before the Europeans arrived and of the Dakota people who were exiled from the state after the War of 1862.

Although many who enjoy the lakes today know nothing of the man John C. Calhoun, many disenfranchised communities are familiar with who he was and what he stood for. Calhoun has become a name synonymous with oppression suffered by many minority groups, especially those who inhabited Minneapolis before white settlement. He drafted the first Indian Removal Act that permanently displaced native people from their homelands; he was a staunch defender of slavery and owned slaves; he was a secessionist leader and thus partly responsible for the Civil War which claimed thousands of American lives. Calhoun also advocated for the annexation of additional lands from Mexico.

Names are important; they reflect what a culture deems important. Restoring the name Bde Maka Ska to Lake Calhoun, a gem within the Minneapolis park system, sends a powerful message to disenfranchised communities among our citizenry that this lake and public parkland are not for just a select group, but for all people. The restored name also adds a depth of meaning to a place almost devoid of evidence of its Native American past.

PETITION TO CHANGE THE NAME OF CALHOUN LAKE # 27-31

Pursuant to Minnesota Statutes 83A.05 to 83A.07, the undersigned registered voters and residents of Hennepin County, Minnesota do hereby petition the Hennepin County Board of Commissioners for a public hearing to change the name of "Calhoun Lake", located in Sections 4, 5; 32, 33, Township 28, 29, Range 24, in the City of Minneapolis (DNR I.D. 27-31) to "Bde Maka Ska."

During community engagement for the Calhoun - Harriet Master Plan, many Native Americans (including Dakota), African Americans, Latinos/Hispanics, and whites stepped forward to request that the Dakota name for the lake, "Bde Maka Ska", be restored to the park and lake and that the name Calhoun be eliminated. The Dakota name for the lake disappeared in 1820 when surveyors named the water body after then Secretary of War, John C. Calhoun. Today there is little visible evidence around the lakes of the inhabitation by Native Americans who lived in the area for hundreds of years before the Europeans arrived and of the Dakota people who were exiled from the state after the War of 1862.

Although many who enjoy the lakes today know nothing of the man John C. Calhoun, many disenfranchised communities are familiar with who he was and what he stood for. Calhoun has become a name synonymous with oppression suffered by many minority groups, especially those who inhabited Minneapolis before white settlement. He drafted the first Indian Removal Act that permanently displaced native people from their homelands; he was a staunch defender of slavery and owned slaves; he was a secessionist leader and thus partly responsible for the Civil War which claimed thousands of American lives. Calhoun also advocated for the annexation of additional lands from Mexico.

Names are important; they reflect what a culture deems important. Restoring the name Bde Maka Ska to Lake Calhoun, a gem within the Minneapolis park system, sends a powerful message to disenfranchised communities among our citizenry that this lake and public parkland are not for just a select group, but for all people. The restored name also adds a depth of meaning to a place almost devoid of evidence of its Native American past.
