Subject: County Board Notification of Outdoor Heritage Fund Proposals

Dear Counties of Minnesota,

Each spring, the Lessard-Sams Outdoor Heritage Council (LSOHC) solicits habitat conservation project proposals to be considered for funding recommendation to the MN Legislature. This letter is to alert you to proposals that could, if they are successful in receiving LSOHC recommendation for funding and ultimate legislative approval of funding during the 2019 Legislative session, have projects within your county.

In accordance with MN Laws of 2018, Chapter 208, Sec. 4, Subd. 13(j), this letter and the web link listed below are to comply with statutory direction that the Lessard-Sams Outdoor Heritage Council (LSOHC) "provide counties with a list of project proposals that include potential fee title land acquisitions in the county that is based on that year's funding requests received by the council from nongovernmental organizations."

As referenced above, the attached document provides a detailed of project proposals with potential fee-title activity within each county.

In an effort to provide each County Board with additional information beyond fee title acquisition activities, the linked spreadsheet also includes information of project proposals with habitat restoration, enhancement, and easement acquisition activities within each county.

With this information in mind, it is important to remember that these project proposals have not received funding. They are simply "proposals" at this time and this is the beginning of the process through which they are requesting funding. Consequently, I would urge you to reach out to the program managers of those project proposals that propose activity in your county. The program managers will be able to provide you with detailed information including why, where, and how they hope to accomplish habitat work. Hopefully, increasing communication between County Boards and nongovernmental organizations who propose working in your county will provide greater knowledge, transparency, and overall collaboration.

Additionally, the LSOHC invites your County Board's feedback regarding the program proposals seeking funding for work in your county. The LSOHC will conduct hearings on August 22-24, to be of greatest impact we suggest any feedback be submitted prior to the hearings. It is our hope that this opportunity will increase communication and lead to stronger and more widely supported project proposals in the future.

Ultimately, the Council's goal is to recommend the use of Outdoor Heritage Fund monies to protect, restore, and enhance Minnesota's natural habitat resources to the benefit of future generations. With that responsibility in mind, the Council continuously strives to increase communication and promote inclusion of diverse partnerships. Your involvement and feedback can help the Council come to the best decisions.

For further information, please feel free to contact LSOHC staff. Their contact information is available on the LSOHC website; <https://www.lsohc.leg.mn/>.

Sincerely,

A handwritten signature in black ink that reads "Robert W. Anderson". The script is cursive and fluid, with the first name "Robert" and last name "Anderson" clearly legible, and "W." as a small middle initial.

Bob Anderson
Chairman
Lessard-Sams Outdoor Heritage Council
