Yolanda C Clark
Deputy Clerk to the Board

HENNEPIN COUNTY

MINNESOTA

Board Action Request 18-0177

Item Description:

Human Services & Public Health resolution, including contracts and amendments to contracts with HEALTH SERVICES providers – Report 1808

Resolution:

BE IT RESOLVED, that the contracts, contract amendments and administrative actions of the Human Services and Public Health Department made pursuant to Chapters 256E and 393 of Minnesota Statutes, as detailed in Human Services and Public Health Contract Report 1808, be approved; that the report be filed in the Contract Administration Office; that the Chair of the Board be authorized to sign the contracts, contract amendments and administrative actions on behalf of the County; and that the Controller be authorized to disburse funds as directed. Such contracts are subject to ministerial adjustment, when such adjustments are done within the constraints of the approved Hennepin County Budget and when signed by the County Department Director or Designee.

Background:

The contracted dollar amounts are based on estimates of program costs and/or utilization during prior periods. Funding for each contract is provided for within service categories in the Human Services and Public Health Department approved annual budgets. Occasionally new services are implemented which are not in the budget but which are fully funded under state or federal grants or other new funding.

Contracted dollar estimates are based upon prior year usage and are subject to fluctuation in placement patterns, service need, and cost shifts. Therefore, it may be necessary to process ministerial adjustments to contracts to increase or decrease contract amounts or to make minor service changes consistent with the department budget and strategic plan. Placement agreements are also processed administratively.

Contracts include services in the following areas: adult mental health; developmental disabilities; chemical health; adult housing; early intervention and family intervention services, day treatment services; emergency shelter; day care; training and employment services, interpreter services, health services, welfare advocacy, and various other human services. Expectations for ongoing outcome measurement are included in all new, renewal, or extended contracts. Outcome measures are developed by the county and contracted providers. Typically they include measures of client service recipient's condition or functioning level. Outcome information is used to modify or improve programs as well as to evaluate effectiveness of different types of intervention and providers. A detailed listing of the specific actions requested by this BAR and an explanation of all unusual items is reflected in the summary of the report.
